

Notice of Open House #2 Environmental Assessment of the Proposed Expansion of the Boyne Road Landfill, Township of North Dundas

The Township of North Dundas (the Township) has initiated a study under the *Environmental Assessment Act* to expand the Boyne Road Landfill Site (the site).

The site is the only municipal waste disposal site available for residents and businesses located in the Township. In late 2014, as part of regulatory approval processes, the Township was made aware that it had exceeded its approved landfill disposal capacity. To continue using the site in the short-term, an emergency Environmental Compliance Approval (ECA) was received and required the Township to evaluate waste management alternatives. The evaluation considered: site closure and waste export, site expansion, a new landfill and alternative waste technologies. The result of the comparative evaluation was that expansion of the existing site was the preferred alternative. Based on the findings of this evaluation, the Council directed Township staff to pursue approval to expand the site. The site expansion requires approval under the Ontario *Environmental Assessment Act*. The purpose of the environmental assessment is to identify alternatives and study the potential effects of the proposed landfill expansion on the environment.

The Township is located in Eastern Ontario, in the United Counties of Stormont, Dundas and Glengarry, approximately 40 kilometres (km) south of Ottawa. The site is located along Boyne Road, approximately 1.5 km east of the Village of Winchester on Lot 8, Concession VI in the former Township of Winchester. The location of the site is indicated on the map below.

The Township wants community feedback on the proposed expansion of the Site and is hosting this second open house as follows:

October 26, 2017

Council Chambers in the Township Office
636 St. Lawrence Street, Winchester
5 – 8 p.m.

At this open house the public will learn about the proposed content of the Draft Terms of Reference for the EA, i.e., existing site conditions, alternative methods being considered for the landfill expansion, the proposed methodology and work plans for evaluating and comparing the alternative methods, and how to be involved in the EA process, as well as opportunities to provide feedback on the Terms of Reference. Attendees will have the opportunity to have one-on-one discussions with Township staff and the project consultant.

If you wish to be added to the project contact list, or have questions, please contact Township staff as noted below or visit the Township's website at:
