The SDG Official Plan was approved with significant modifications by the Ministry of Municipal Affairs—affecting thousands of rural and agricultural properties across SDG, many of which are being appealed to the Ontario Municipal Board. ## IAN MCLEOD

The County continues to make very significant investments in building and maintaining its critical infrastructure. For example, in 2018, the County will be investing over \$18 million improving its network of roads and bridges. Our goal is to strategically repair/replace infrastructure to maximize its useful life and ensure the best possible return on investment. We are rightly proud of our transportation network and will continue to make investments that maintain the integrity of the system.
