

Environmental Assessment of the Township of North Dundas Waste Management Plan Notice of Draft Environmental Assessment Study Report

The Township of North Dundas (Township) has completed a draft Environmental Assessment (EA) of the Township of North Dundas Waste Management Plan.

The EA Study evaluated long-term solid waste management options for a 25-year planning period. The Township is seeking to accommodate disposal of waste corresponding to the consumption of approximately 417,700 m³ of waste landfill disposal from 2023 to 2048, as its existing Boyne Road Landfill is currently at capacity. The EA Study evaluated long-term solid waste management options to achieve this objective and has identified increased diversion and expansion of the existing Boyne Road Landfill as the preferred alternative.

As a requirement of commitment 15 in the approved Terms of References the draft EA Study Report will be available for public review and comment from May 27, 2022 to June 24, 2022 for a four-week review period.
